**Website Development Proposal**

**For: Temerach Saving and Credit Cooperative (Temerach SACCO)**

---

## 1. Executive Summary

This proposal presents a comprehensive plan to design, develop, and deploy a modern, secure, and user-friendly website for **Temerach Saving and Credit Cooperative (Temerach SACCO)**. The website will serve as an official digital platform to improve visibility, member services, operational efficiency, and trust among existing and potential members.

---

## 2. Background & Rationale

In today's digital economy, SACCOs are expected to provide transparent information and convenient services through online platforms. Currently, Temerach SACCO relies mainly on physical offices and social media pages. A dedicated website will:

- Strengthen institutional credibility
- Improve communication with members
- Support digital transformation initiatives
- Attract new members and partners

---

## 3. Objectives of the Website

The main objectives of the Temerach SACCO website are:

- Provide accurate and up-to-date information about the SACCO
- Offer online services for members
- Enhance transparency and trust
- Reduce operational workload through digital self-service
- Promote the SACCO's products and achievements

---

**4. Scope of Work**

**4.1 Website Design**

- Modern, responsive design (mobile, tablet, desktop)
- SACCO-friendly professional layout
- Branding using Temerach SACCO colors and logo
- Amharic and English language support

**4.2 Core Website Pages**

- Home Page
- About Us (History, Vision, Mission, Values)
- Management & Governance
- Products & Services
    - Savings
    - Loans
    - Member Benefits
- Membership
    - How to Join
    - Requirements
    - Downloadable Forms
- News & Announcements
- Gallery (Photos & Videos)
- Contact Us (Map, phone, email, inquiry form)

**4.3 Member Online Services (Phase-1 / Phase-2)**

- Member login portal
- Account balance inquiry
- Loan status inquiry
- Savings statements (view/download)
- Online service request submission

**4.4 Administration Panel**

- Content Management System (CMS)
- User and role management
- News and announcement publishing
- Basic analytics and reports

**5. Technical Specifications**

- Technology: Modern web framework (secure and scalable)
- Hosting: Cloud-based or local hosting (as preferred)
- Security:
    - SSL certificate
    - Secure authentication
    - Regular backup
- Performance: Fast loading and optimized pages
- Compliance: Aligned with Ethiopian cooperative regulations

**6. Implementation Plan & Timeline**

| Phase | Activity | Duration |
|---|---|---|
| Phase 1 | Requirement gathering & approval | 1 week |
| Phase 2 | UI/UX design | 1 week |
| Phase 3 | Website development | 3 weeks |
| Phase 4 | Testing & quality assurance | 1 week |
| Phase 5 | Deployment & training | 1 week |

**Total Estimated Duration:** 7 weeks

**7. Benefits to Temerach SACCO**

- Improved member satisfaction
- Reduced operational costs
- Enhanced transparency and governance

- Strong digital presence and brand image
- Foundation for future digital services (mobile app, digital payments, core SACCO system integration)

**8. Future Enhancements (Optional)**

- Mobile application (Android & iOS)
- Online loan application and approval workflow
- Digital payment integration
- SMS & email notification system
- Full SACCO Management System (Core SACCO / ERP)

**9. Training & Support**

- Administrator and staff training
- User manuals and documentation
- Technical support during warranty period
- Optional annual maintenance and support agreement

---

**10. Conclusion**

Developing an official website for Temerach SACCO is a strategic investment that will modernize operations, improve member engagement, and position the SACCO for future digital growth. We look forward to partnering with Temerach SACCO to deliver a secure, scalable, and impactful digital platform.
